Since he (start) to learn about the opportunities in the business world, he doesn't want to continue spending his life as a delivery man.

VI. Complete the conversations with the correct future form of the verbs in the brackets (5).

1. Would you like to come for dinner tomorrow?

Thanks but I (see) a film with Paolo tomorrow.

2. Did you tell everyone about the meeting next week?

Sorry, I forgot. I (email) them straightaway.

3. What plans do you have for tonight?

I (meet) friends.

4. What did you do about the job offer in the US?

Yes, I've decided. I (accept) it.

5. Do you know when the conference is?

According to the schedule it (start) at 10 am.

VII. Complete the sentences using future perfect or future continuous form (5)

1. On Friday at 4 p.m. Prof. Green (give) a presentation on alternative sources of energy
2. By Sunday morning the participants (attend) two receptions.
3. By the end of the conference they (discuss) many important issues.
4. I think in ten years time I (work) as a software developer.
5. By 2030 atomic transistors (replace) chips.

VIII. Rewrite these questions starting with words given (4).

1. "How much do you traven in your present job?"

Could you tell me?

2. "Is there anything you dislike about your job?"

We would like to know?

3. "Does your partner have any benefits?"

Do you ming telling me?

4. "What qualifications did you obtain?"

May I ask?

IX. Make questions and answers using present simple and present perfect simple or present perfect continuous (2).

1. Why/you/be/hungry?
I/not eat/all day
2. Why/you/look/exhausted?
I/work/since 7 o'clock this morning

X. Make direct questions about the following (5):

1. Company/ you/ work
2. How long/ current job
3. When/ leave/ school
4. Number of years in engineering
5. Strengths and weaknesses

XI. Use the word in brackets to form a word which fits in the sentence (6).

1. The weak audio signal entering a radio is by the amplifier thus making it audible. (amplify)
2. Due to development in mobile telecommunications systems, a new of mobile phone is now available. (generate)
3. IC stand for circuit. (integrate)
4. Computer software is if it does what the manual says it should (rely)
5. One area of electronics is concerned with the of information. (store)
6. All systems consist of an input, a processor, an output and usually memory (electron).

XII Define these terms and say who invented them (3):

1. generator
2. induction motor
3. incandescent lamp

XIII. Translate the sentences into English (6):

1. Sposobnost sisusnih racunarskih uredjaja da kontrolisu kompleksne operacije transformisala je nacin na koji se mnogo zadaci obavljaju. Pocevsi od naucnog istrazivanja do proizvodnje potrosacke robe.
2. Dramaticno raspadanje motora aviona tokom leta izazvala je lose napravljena cijev za gorivo koja nije odgovarala standardima.
3. Do 2040. godine geneticki inzinjering i nanotehnologija ce omoguciti da zivimo 120 godina.
4. Krsenje sajber bezbjednosti je rezultat socijalnog inzinjeringa ciji se napadi oslanjaju na manje tehnicki zahtjevne tehnike prevaranata koji navode ciljanje zrtve da rade ono sto oni zele.
5. Mozete li mi reci da li ste ikada radili na slicnom projektu?
6. Postoji sve veca svijest o tehnickoj komponenti sajber bezbjednosti kao i o potrebi da se poboljsa ljudski aspekt kako bi se umanjio rizik od potencijalnih napada socijalnog inzinjeringa.

XV. Write a formal email (4)

XVI. Write your CV (4)

TEST 4

I. Complete the text below with the appropriate present simple or present continuous form of the verbs in brackets (8):

Dabs.com is a large long-established British traditional mail order computer dealer which (move) with the times into the world of e-tailing, i.e. selling computer products from our web site. Our sales (be) about \$100 million per annum which (put) us in the top 20 in the UK. Our company (deal) with over 500000 customers, and (sell) over two million items. We (grow) rapidly and at the present we (employ) nearly 2000 staff, a large proportion of which (be) in customer service.

II. Make a question for each answer in Italics (5):

1.

I come from a little town called Zug, near Zurich.

2.

I work for Syngenta.

3.

No, not at the moment. But we will start talking on new staff again in May.

4.

I think he is a designer.

5.

To be a designer you need to be creative and hard working.

III. Complete the extract choosing from there verbs: set up, run, launch, choose, total, offer

In 1992 Bell free installation of applications software as a standard option and in 1993 the low-priced Explorer PCs, one of the most highly praised systems in the industry. In 1996 Bell an Internet computer store, through its website www.bell.com. Last year sales more than \$10 million a day.

May I ask

4. "What are your plans for the future?"

Could you tell me

IX. Make questions and answers using present simple and present perfect simple or present continuous.

1. Why/you/be/angry?

I/wait/for you since 6 o'clock

2. Why/you/be/upset?

I/just fail/driving test

X. Make direct questions (5)

1. Company/you/work

2. How long/current job?

3. Previous job

4. Number of years in IT sector

5. Strengths and weaknesses

XI. Explain the terms

- Edutainment
- Expert system
- Telecommute
- Information superhighway

XII. Tabela i definicija za electronic i electrical engineering

Electrical engineering	Electronic engineering
Large-scale electrical systems	Computer
Motor control	Integrated circuits
Power transmission	Small-scale electrical systems
Transmit energy	Transmit information

- Electrical engineering: Electrical engineering deals with electricity, electromagnetism, and electrical systems. It involves the generation, transmission, distribution, and use of electrical energy.
- Electronic engineering: Electronic engineering is a subset of electrical engineering that focuses on the design, development, and application of electronic circuits, devices, and systems. It deals with smaller electronic components and their integration into electronic devices.

XIII. Pridjevi i imenice

Noun

Adjective

therm

volt

electricity

radiation

XIV. Put the verbs in brackets in the past simple or past continuous:

TEFLON - Roy Plannkett.....(make) the first batch of Teflon while he
(work) for Du Pont. He (carry) out research into coolant gases when
he..... (leave) one batch in a container overnight. He came back the next day to find that the gas had
turned into teflon, the slipperies substance in the world.

PFIZERS LUCKY BREAK - Scientists at Pfizers labaratory in England.....(test) a new heart
drug called Viagra when they.....(realize) that, although it was of little use treating heart
problems, it had some unexpected side-effects.

XV. Translate

1. Naizmjenicna struja je na kraju zamijenila jednosmjernu struju u proizvodnji i distribuciji elektricne energije sto je dovelo do ekspanzije elektroprivrede svuda u svijetu poboljsavajuci sigurnost i efikasnost u distribuciji elektricne energije.
2. Mozete li mi reci koji faktori odlucuju da li je mjesto prikladno za vjetro farmu?
3. Koji tipovi racunarskih sistema su dostupni ljudima na udaljenim lokacijama upotrebom elektronskih ucionica ili salu za sastanke?
4. Umrezavanje je nacin omogucavanja inace nekompatibilnim sistemima da komuniciraju i dijele resurse
5. Bezbjedan sistem treba da obezbijedi nekoliko garancija kao sto su poverljivost, integritet i dostupnost podataka, kao i autenticnost i neporicanje
6. Do 2030. godine racunari ce postati efikasniji i mocniji u pogledu inteligencije i kolicine podataka koje mogu pohraniti.
7. Pametne masine su dizajnirane da bi preuzele neke od osnovnih zadataka koje su prethodno obavljali ljudi cineci zivot malo laksim i malo ugodnijim

TEST 5

I. Complete the conditional sentences (4)

1. If you added more memory you(**speed up**) the computer.
2. If he(**forget**) to save data he will lose them all.
3. If you(**install**) a modem you would be able to connect to a telephone line.
4. If she..... (**not send**) us data on time we will lose to our competitors.

II. Translate the sentences into English (3).

1. Sposobnost sličnih računarski uređaja da kontrolisu složene operacije je transformisala način na koji se mnogi zadaci obavljaju, počevši od naučnih istraživanja pa do proizvodnje potrošne robe.
2. Sta može analitičar da uradi da bi poboljšao rezultate pretrage podataka koja daje konkurentnu prednost poslu?
3. Kada se elementi savijaju, dvije suprotne sile djeluju: sabijanje na jednoj strani, a rastezanje na drugoj.

I Complete the text below with the appropriate present perfect simple or past simple form of the verbs in brackets (7):

The board of directors of Medwat Medical Centre(**announce**) twelve months ago that an extension block would be built in the grounds beside the existing building. Although funding(**not yet be approved**), ProTec Engineering(**complete**) the design. The hospital CEO, Mr Bernard Wilkes..... (**release**) that design at a press conference yesterday. While the new building is designed to blend aesthetically with the older building, Mr Wilkes (**emphasis**) yesterday that sustainability was one of the key design criteria. Green building technology(**be incorporated**) at all stages of the design, as we(**request**) at the beginning of the project.

II Complete the passage using either active or passive forms of the verb (10).

Whenever a disaster(**happen**) somewhere in the world, reporters and photographers(**send**) there to interview people and take photos. The news reports(**can/send**) by e-mail or over the phone and rolls of film..... (**rush back**) to the office to be developed.
